Based in Kew, with easy access off Chandler highway and plenty of onsite parking, Ability Works Australia operates four Business units.

Corporate Partner Volunteering Program

The program runs from 8.30am until 4pm on pre-booked days. Volunteers are given a comprehensive workplace health and safety pre-visit booklet, onsite induction and training. They are then assigned to work stations to work alongside our employees, and rotated to different stations through-out the day so they meet new people and experience different jobs. We can accommodate up to 10 volunteers a day.

For more information contact Kannan Nair or Clint Webb on (03) 9853 7080.

We encourage everyone from CEO's to graduates to come and work along-side our team. Our employees love to share their stories, their talents and their work. Meeting new people from different businesses is wonderfully motivating and we are proud to share our workplace and experience new connections.

Ability Works Australia can tailor a Volunteer program to suit any type or size of business. Finding solutions is what we do best.

"It was simply an amazing experience. Understood the importance of winning contracts to keep people employed."
